Hello Atlantic Spinners and Hand-weavers,

I have attached photos of a loom I have for sale at \$295.00 (I am open to offers). Following is the information:

Cranbrook Loom, made by the original maker, after his son joined his company. The company was then renamed J. P Bexel & Son. The loom was made between 1946 and 1977, when the rights to this loom model were sold to the Norwood loom company. This loom has many of the hallmarks of Swedish style looms. It is a good solid workhorse, and it is still in production, now by the Schacht Spindle Company (Bexel Cranbrook looms).

The loom is about 36" wide.

I am located in Hammonds Plains, NS.

Thank you very much for your attention to this email.

Warm regards,

Rosa-Maria Hirst
