

Fleeces for Sale

I have compiled a list of my sheep fleeces selected at time of the Spring shearing. which might be suitable for handspinning or other handcraft purposes. Should there be any questions or something on the list of interest, please let me know soon so it can be reserved. I could either deliver the parcel to the city on one of my trips down or the interested party would be welcome to arrange a farm visit to inspect the fleece of interest.

Fleece price would be \$8 - \$12 per lb.
